

# **TULSA POP KIDS, INC.**

## **OUR MISSION**

Tulsa Pop Kids Inc. was created to provide support within the community to promote literacy programs for children through pop culture and entertainment. Tulsa Pop Kids Inc. uses a variety of resources to further our mission- from donations of comic books to volunteers who dress up in cosplay to visit children in hospitals and elementary schools as well as local events that partner with other organizations in the community.

## **OUR HISTORY**

Tulsa Pop Kids Inc. was founded in 2017. We began as a small group of like-minded individuals who shared a love of pop culture and comic books. Many of the founding members began their interest in reading through the joy of comic book stories and superheroes. We understand the impact that comics can have on a child- not only through sparking a love for storytelling and words but also providing positive role models for children who might not have that influence otherwise. A comic can change the course of a child's life and put them on a path of creativity and learning.

Over the last year, Tulsa Pop Kids Inc. has passed out over three thousand five hundred comics to children at elementary schools, hospitals, movie events, parades and much more. Through the help of our generous donors, we have been able to share our love of pop culture to our community around us. Tulsa Pop Kids Inc. also provides a platform for others within the community to come together on a regular basis and form lasting friendships. We also are working to build impactful partnerships with other nonprofits in the community such as OKPop and Big Brothers Big Sisters to expand our reach.
